Leadership & Mentoring Peer Learning Community: Cultivating Leadership from Within

A Professional Learning Community (PLC), is an extended learning opportunity to foster collaborative learning and share experiences among colleagues within the field of Early Childhood and Out-of-School Time Education. PLC's share best practices and experiences during each meeting.

Many of us come to a leadership role without having any formal training. Through this Peer Learning Community we will explore how we can use our skills to be great leaders. Whether you are supervising interns, assistant teachers or FCC assistants, leading a group of children or have goals to become a Lead Teacher, Director or an early childhood advocate statewide, we will discover what leadership means. We'll talk about how to communicate with peers who you now need to supervise and relationships with parents in your new leadership role. We will use the 5 components of relationship building, the EEC Core Competency #8 Professionalism and Leadership standards and our own self-reflection as tools to investigate what skills we need, what we already have and how to fine tune these into leadership skills.
